PROFESSIONAL SUMMARY :

- B.E. Computer Science student with strong foundations in Data Structures, Algorithms, and Object-Oriented Programming, with a strong interest in Software Engineering and scalable system development.
 - Experienced in **backend and full-stack development** using **Java, Spring Boot, Node.js, and React.js**, with expertise in designing **RESTful APIs** and **database-driven applications**.
 - Passionate about **problem solving, efficient algorithms**, and developing **reliable software using modern engineering practices**.
-

TECHNICAL SKILLS :

- **Programming Languages:** Java, Python, C++, JavaScript, C
 - **Core Concepts:** Data Structures, Algorithms, Problem Solving, Object-Oriented Programming (OOP), Operating Systems, System Design Basics, Software Development Life Cycle (SDLC), Debugging & Testing, Networking Fundamentals (TCP/IP)
 - **Backend Development:** Java (Spring Boot), Node.js, Express.js, API Development (RESTful APIs), JWT Authentication, Middleware, MVC Architecture
 - **Databases:** MySQL, MongoDB, Database Design
 - **Frontend Development:** React.js, HTML5, CSS3, Bootstrap, EJS, Handlebars (HBS)
 - **Cloud & Dev Tools:** AWS EC2, AWS S3, Git, GitHub, Linux, Postman, VS Code
-

INTERSHIPS :

- **AI/ML Intern – Edunet Foundation (IBM SkillsBuild & AICTE)**
June 2024 – July 2024
 - Completed a 6-week internship focused on **Artificial Intelligence** and **Machine Learning applications**.
 - Implemented **Python-based exercises, data analysis**, and **basic machine learning techniques**.
 - Applied **data preprocessing** and **exploratory data analysis** to understand datasets and improve model input quality.
 - Collaborated on projects involving **AI tools, model development workflows**, and **problem solving**.
-

PROJECTS :

- **Student Result Management System – Java, Spring Boot, MySQL**
 - Developed **RESTful APIs using Spring Boot** following **MVC architecture** to enable efficient **backend data processing** and **secure communication between services**.
 - Implemented **JWT-based authentication** and **role-based authorization** to secure application endpoints.
 - Designed and managed **MySQL database schema** for structured **data storage** and **query performance**.
 - Performed **testing, debugging**, and **API validation** to improve **system reliability**.
 - **COVID-19 Testing Management System – Python, SQLite**
 - Implemented **data validation** and **error-handling mechanisms** to ensure **data accuracy**.
 - Designed **SQLite database schema** for efficient **data storage** and **retrieval**.
 - **Emergency Patient Queue System – Java, Swing, MySQL**
 - Designed a **priority-based queue management system** to handle **emergency patient scheduling**.
 - Integrated **Java Swing GUI** with **MySQL database** for efficient **data management**.
 - Optimized **database connectivity** and **query execution** to improve **system response time**.
-

EDUCATION :

- **Bachelor of Engineering (B.E.) in Computer Science and Engineering, Chitkara University, Punjab**
 - **CGPA : 9.02 | Expected Graduation: June 2027**
 - **Class XII (CBSE Board) – 81.4% (Mathematics: 95%)**
 - **Class X (CBSE Board) – 82.6% (Mathematics: 95%)**
-

CERTIFICATIONS & ACHIEVEMENTS :

- **Solved 378+ Data Structures & Algorithms problems on LeetCode, demonstrating strong problem solving and algorithmic thinking.**
- **Flipkart Runway Season 5 – Top 100 finalist out of 47,000+ participants.**
- **Microsoft Certified: Azure Fundamentals**
- **Oracle Cloud Infrastructure – AI Foundations Associate**
- **Google Gemini Certified Student – Google for Education**
- **Cisco Certified: Networking Essentials & Packet Tracer**
- **Google Arcade Facilitator Program – Legend Tier**
