

Java Complete Notes

This document contains structured Java notes covering fundamentals, OOP, execution flow, collections, and more.

1. What is Java?

Java is a high-level, object-oriented programming language that is platform independent due to JVM.

2. Execution Flow

Java code (.java) → compiled using javac → bytecode (.class) → executed by JVM.

3. OOP Concepts

Encapsulation, Inheritance, Polymorphism, Abstraction form the core of Java.

4. JVM, JRE, JDK

JVM executes bytecode, JRE provides runtime environment, JDK provides development tools.

5. Collections

List, Set, Map are main interfaces. Examples: ArrayList, HashMap.

6. Exception Handling

Handled using try, catch, finally blocks.
